PROFESSIONAL SUMMARY

Experienced software developer with a passion for solving problems and creating innovative software solutions. Enjoys working on diverse projects and continuously learning new technologies. Committed to delivering high-quality software that helps businesses succeed. Dedicated, detail-oriented, and focused on exceeding client expectations.

TECHNICAL SKILLS

Frontend: React, JavaScript, TypeScript, Bootstrap, TailwindCSS
Backend: PHP (Laravel), Supabase, MySQL
Mobile: Kotlin, Java (Android)

WORK EXPERIENCE

Freelance Software Developer 2023 – Present
Self-Employed

- Collaborated with clients to design and develop responsive websites using React, JavaScript, TypeScript, Bootstrap, TailwindCSS, Laravel, Supabase, and MySQL.
- Translated client requirements into functional and visually appealing websites, ensuring user-friendly navigation and optimal performance.
- Implemented front-end and back-end web development best practices, including cross-browser compatibility, accessibility, and mobile responsiveness.
- Developed mobile applications using Android Studio (Java and Kotlin).

Office Staff (OJT) February – May 2023
TESDA Occidental Mindoro Provincial Training Center

- Provided client support, addressed queries, and resolved technical issues.
- Encoded data using Excel and performed basic tasks such as printing and sorting files.
- Processed and managed incoming and outgoing correspondence and documents.
